Enclosure(s): Enclosed are the following items:

1. (U//~~FOUO~~) Referral documents received from ICIG

Details:

(U) (~~S//NF~~) FBIHQ, Counterespionage Section, is opening a full investigation based on specific articulated facts provided by an 811 referral from the Inspector General of the Intelligence Community (ICIG), dated July 6, 2015 regarding the potential compromise of classified information.

(U//~~FOUO~~) The purpose of this investigation is to detect, obtain information about, and protect against federal crimes or threats to the national security. The initiation of this Full Investigation is based, as per AGG-Dom II.B.3 and DIOG Section 7.5, on activity constituting a federal crime or a threat to the national security has or may have occurred, is or may be occurring, or will or may occur and the investigation may obtain information relating to the activity or the involvement or role of an individual, group, or organization in such activity.

(U) (~~S//NF~~) The ICIG referral provided a sample unclassified e-mail that allegedly contains information at a classified and SCI level. According to the ICIG, this e-mail was part of a larger trove of other unclassified e-mails they were reviewing during their own investigation.

(U) (~~S//NF~~) The following documentation was provided by the ICIG and will be kept in the 1A section of the case file.

- 1) 811 referral letter from the ICIG dated July 6, 2015 regarding Potential Compromise of Classified Information.

~~(S//NF)~~ Due to the extremely sensitive nature of this investigation and the damage its disclosure could cause, the case will be designated as a prohibited investigation in accordance with the Counterintelligence Division Policy Implementation Guide. Author requests Assistant Director concurrence to maintain the identified case as prohibited.

(U) ~~(S//NF)~~ This investigation is also designated a Sensitive Investigative Matter (SIM) due to a connection to a current public official, political appointee or candidate as defined in Section 10.1.2.2.2 of the DIOG.

(U) ~~(S//NF)~~ Additionally, an Assistant Director exemption for uploading to Sentinel is requested. Since the ICIG referral alleges classified SCI material may have been compromised, all investigative work will be conducted on SCION. As documents to the case file are added, a placeholder will be entered into Sentinel and a serial number assigned to the document. Electronic copies of the case serials will be stored on SCION. The Honorable James B. Comey, Jr.
Director
Federal Bureau of Investigation
935 Pennsylvania Avenue, NW
Washington, D.C. 20535

Dear Director Comey:

The Inspector General of the Intelligence Community (IC) and the Inspector General of the State Department (State OIG) recently notified the FBI and several Intelligence Community agencies of a compromise of national security information in connection with Hillary Clinton's use of a non-governmental email server while Secretary of State. Specifically, in a sample of 40 of Secretary Clinton's emails IC identified four containing classified IC-derived information. These recent revelations raise important questions about the role the Federal Bureau of Investigation (FBI) has taken and will continue to take in this matter. In addition, a notification from the IC indicates that these classified emails existed on a thumb drive and may exist on a server. According to a briefing provided today by the IC and State OIGs, former Secretary Clinton's personal attorney, David Kendall, was in possession of the thumb drive at the time of the notice to the FBI and other IC components. This raises very serious questions and concerns if a private citizen is somehow retaining classified information.

Accordingly, please explain whether Mr. Kendall had the requisite security clearance and authorization to be the custodian of classified national security information. If not, please explain what steps the FBI has taken or plans to take to secure and prevent further dissemination of the classified information contained on the thumb drive. In addition, what steps are being taken to hold anyone in this matter accountable for unauthorized possession of classified material?

If you have any questions, contact Josh Flynn-Brown of my Committee Staff at (202) 224-5225.

Sincerely,

Charles E. Grassley
Chairman
Committee on the Judiciary

We ask that this be an unclassified report, and that a classified annex be provided if necessary. Thank you for your time, and we look forward to working with you on this important matter of national security.

Sincerely,

Chairman Bob Corker

The Honorable James B. Comey
Director
Federal Bureau of Investigation

Washington, DC 20535

Dear Director Comey:

The House of Representatives charged and empowered the Select Committee on Benghazi to review the events before, during, and after the 2012 attacks in Benghazi, Libya and specified related matters. During the pendency of our investigation, the Committee has discovered facts suggesting the existence of issues of significant legislative and oversight concern. I now understand a formal referral has been made to the Federal Bureau of Investigation by impartial officials within the Executive Branch regarding potential investigative issues flowing from some of these facts.

While the Committee's work will continue for legislative, oversight, and reform purposes, it is important the Bureau also immediately consider whether a thorough, independent, and nonpartisan review of the matters referred to it, as well as issues attendant thereto, is warranted. This is necessary to ensure the laws are enforced fairly, evenly, and impartially wherever the relevant facts may lead. The Bureau is in the best and most appropriate position to evaluate the complete range of counterintelligence and public integrity equities that may be implicated. Only the Bureau can accomplish this in a way that ensures public confidence in a fair, timely, and exhaustive investigation of these matters. And the Bureau is uniquely well suited to ensure this is accomplished free of any external factors save the facts applied assiduously to the law and devoid of either real or perceived political influence.

The principles at bar are particularly important with respect to counterintelligence equities and the handling, retention, and storage of classified information. The Department of Justice has recently applied a consistent standard of aggressive and evenhanded investigation in cases ranging from Edward Snowden to David Petraeus in order to unambiguously deter future mishandling and disclosure. I understand significant concerns have been referred to the Bureau in this area based on the objective assessment of an interagency review that included consultation with the officials responsible for determining what information is classified. The facts underlying this referral potentially implicate the same important interests the Department has steadfastly sought to protect in the past.

Similarly, the Department has thoroughly investigated matters relating to the handling of evidence relevant to potential or ongoing investigations and the accuracy of representations made to Congress even in sensitive national security cases. While I expect the Committee will continue to explore relevant facts and issues within its charter, the Committee is willing to provide access to any information currently obtained during the course of our investigation that may inform and instruct matters raised in the referral.

You have spoken in the past about "the reservoir of credibility and trust that is the Department of Justice" and you have stated "I am a huge believer in the rule of law, but I also believe that no one in this country is beyond the law." I could not agree with you more. Your work is ultimately judged, as mine once was, by the blindfolded woman holding nothing but a set of scales and a sword. The evenhanded application of the law and the dogged, impartial pursuit of the facts are the hallmarks of justice.

I hope you will carefully consider these matters. They are outside the purview of what our Committee has been asked to do, but clearly within the four corners of what you have been asked to do.

Sincerely,

Trey Gowdy
Chairman

Attached is an email forwarded to us by State Dept. for coordination. The email concerns Benghazi. It is from former Sec. Clinton's emails. They've asked for us to finish our review by COB tomorrow. Could you highlight any classified, LES information? I'm at HQ today. I classified this email out of caution.

TRANSITORY RECORD

[Redacted]

I believe the first document reviewed was part of this batch-but am not entirely sure.

[Redacted]

State Department Provides New Benghazi Documents To House Panel. Chris Wallace reported on Fox News' Special Report (4/30, 1.53M) that the State Department's Benghazi Accountability Review Board "turned over more than 4,000 pages of documents and notes to the House Select Committee on Benghazi." Committee Chairman Trey Gowdy said the documents "were recently subpoenaed a second time after the initial request two years ago," adding that he "is still waiting for the Department to produce other records that have also been requested or subpoenaed."

Politico (4/30, French, 1.11M) reports that the documents "were not reviewed by the other half-dozen committees that investigated the 2012 attacks." Gowdy said, "Contrary to those who said all had been asked and answered, the Benghazi Committee has shown there is more still for Congress to consider." The Washington Times (5/1, Sherfinski, 641K) reports that Democrats "on the committee have said a handful of investigations into the attack have already been done and say Republicans are using the committee as a way to attack" Hillary Clinton.

USA Today (5/1, Page, 5.01M) reports that Gowdy also "says he might be willing to accept assurances under oath from Hillary Clinton that she has provided all her relevant emails to the panel — dropping requests for an independent examination of her computer server." He told "Capitol Download," "If she were, under some theory, able to say, 'yes, I can promise you under penalty of perjury you have every single document you're entitled to,' that would probably shut off that line of inquiry. If she can, then it will be a short conversation."

TRANSITORY RECORD

Michelle,

Just returned from the meeting at State hosted by USS Kennedy concerning HRC emails. After discussing the logistics of any consultations regarding the 55,000 pages in order to meet a court-ordered Jan 2016 deadline, Secretary Kennedy requested [redacted] DoJ/OIP, and me to stay behind to discuss the FBI determination of classified material in an initial batch of 296 emails dealing with Benghazi. These emails were processed in response to a request by the House Select Committee on Benghazi, they were processed using FOIA guidelines.

b6
b7C

State Department referred the document to us for our review. I passed the email to CTD who reviewed and marked the document with FBI equities. Included was one line marked with the with classification "SECRET." Attached is the email in question with markings. As an OCA, this marking was entirely consistent with the thousands of FBI documents I've reviewed over the years. State OLC contacted me initially objecting to the classification. Later Secretary Kennedy contacted [redacted] in LOD, who then contacted me. I've notified CTD Exec Sec in each instance of the contact.

b6
b7C

The redaction lists "interference with foreign relations" as the rationale. The crux of States argument is they know better what will impact foreign relations and there is no longer a government in place. The more appropriate rationale is sources and methods. While the email does not name the particular official, this might be deduced and, given the threat of violence in this region, any surmise could be fatal for whoever cooperated with us. State will say no one will know if it is redacted, but that is not how classification works.

This all said, CTD is ultimate decider as to the level of harm contained in the information. I told Secretary Kennedy this and he said he would be calling AD Steinbach.

[redacted]

b6
b7C

"Here is our response. I recommend you go ahead and classify the forwarding email to us in the future in case we determine there is classified information. This marking was approved by the CTD front office. The first bracket starts with, "Apparently...", the second bracket starts with, "The A/RSO...", the third bracket, [redacted] The b1 marking is SECRET//NOFORN."

All

I just spoke to Pat Kennedy at DoS reference a State.gov email dated November 18, 2014 07:01PM from [redacted] and in which the FBI was requested to review a pending FOIA request.

b6
b7C

I advised him independent and objective reviews by both RMD and CTD previously determined two portions needed to be redacted based on exemption (b)(1) – “specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy.” We spoke earlier today and in the conversation requested that, as the Assistant Director CTD, I review the content and revise the determination and redact based on exemption (b)(7)(D) only– “could reasonably be expected to disclose the identity of confidential source, including a State, local, or foreign agency or authority...”

After discussions with RMD and CTD today, I explained to Mr. Kennedy to only exempt for (b)(7)(D) was not appropriate as the information in the two portions in question was classified at the Secret/NOFORN level and exemption (b)(1) was needed in addition to exemption (b)(7)(D). Therefore, I would not change the original determination made by the FBI.

State Department COS Jonathan Finer called this afternoon reference this matter. He provided the background on the review process, stated that he was not attempting change the AD's classification decision, and said that he just wanted to make sure that FBI leadership was aware of the decision and the procedural process and media attention it would likely trigger.

I spoke to AD Steinbach who provided the background on the decision and I relayed back to the State Department that leadership is aware of the review process and decision. Mr. Finer asked whether it would be possible for the FBI to classify the information (as opposed to the State Department classifying on behalf of the FBI). I told him that I would inquire but would defer to the classification and FOIA experts.

VIA ELECTRONIC TRANSMISSION

The Honorable James B. Comey, Jr.
Director
Federal Bureau of Investigation
935 Pennsylvania Avenue, NW
Washington, D.C. 20535

Dear Mr. Comey:

The Judiciary Committee has learned that the Office of Inspector General for the Department of State (State OIG) opened an investigation involving potential criminal conduct by Ms. Huma Abedin while she worked for the Department of State under then-Secretary Clinton. Specifically, the investigation examined the circumstances of Ms. Abedin's work arrangements, leave status, and conversion from a full-time Department of State employee to a Special Government Employee (SGE) and Senior Advisor to former Secretary Clinton.

During the course of its investigation into this matter, the Committee has learned that the State OIG transmitted a letter, notice, or other similar communication ("letter") to the FBI in October 2013 placing it on notice that State OIG's investigation was no longer a preliminary matter but a full-fledged criminal investigation into Ms. Abedin. However, there have been public denials that the information provided to the Committee is accurate.¹ In order for the Committee to assess the veracity of the information provided in this matter, please provide a copy of the October 2013 letter from State OIG by no later August 12, 2015. If no such letter exists, please advise the Committee immediately.

If you have any questions, contact Josh Flynn-Brown of my Committee Staff at (202) 224-5225. Thank you for your cooperation.

Sincerely,

Charles E. Grassley
Chairman
Committee on the Judiciary

WASHINGTON, DC 20510-6250

August 17, 2015

KEITH B. ASHDOWN, STAFF DIRECTOR
GABRIELLE A. BAYKIN, MINORITY STAFF DIRECTOR

The Honorable James B. Comey
Director
Federal Bureau of Investigation
935 Pennsylvania Avenue, NW
Washington, D.C. 20535

Dear Director Comey:

I write to inquire about recent reports that the Federal Bureau of Investigation (FBI) has taken possession of a personal email server and a thumb drive containing 30,000 emails sent or received by former Secretary of State Hillary Clinton that may include classified information.¹ According to the Inspector General for the Intelligence Community (IC IG), the emails contained on the thumb drive and transmitted on the personal server include national security information collaterally classified as high as Top Secret and subject to Sensitive Compartmented Information control systems, which are reserved for the country's most sensitive intelligence.² As the FBI begins to examine the thumb drive and server, I seek to understand what steps you have taken to review the material and to evaluate the safeguards surrounding the classified information.

On March 12, 2015, I joined Chairman Bob Corker and Chairman Richard Burr in asking the Inspector General of the State Department to examine whether State Department employees sent or received classified information in an insecure manner.³ We asked that the State Department IG coordinate with the IC IG in this review.⁴ On March 18, 2015, I wrote separately to the State Department IG to inquire whether Secretary Clinton's personal emails included any classified information.⁵ On July 23, 2015, the IC IG notified Congress that its limited sampling of a portion of Secretary Clinton's emails had revealed the presence of classified information.⁶ The IC IG referred the matter to the FBI.⁷

¹ See Michael S. Schmidt, *Hillary Clinton directs aides to give email server and thumb drive to Justice Department*, N.Y. TIMES, Aug. 11, 2015; Tom Hamburger & Karen Tumulty, *Hillary Clinton's e-mail server turned over to FBI*, WASH. POST, Aug. 12, 2015.

² Memorandum for Sen. Richard Burr et al. from I. Charles McCullough, III, Update Classified Material on Personal Electronic Storage Devices (Aug. 11, 2015).

³ See Letter from Senator Bob Corker et al., to U.S. Dep't of State, Office of Inspector Gen. (Mar. 12, 2015).

⁴ *Id.*

⁵ Letter from Senator Ron Johnson, S. Comm. on Homeland Sec. & Gov't Affairs, to Steve A. Linick, U.S. Dep't of State Office of Inspector Gen. (Mar. 18, 2015).

⁶ Memorandum for Sen. Richard Burr et al. from I. Charles McCullough, III, Update to IC IG support to State Department IG (July 23, 2015). The IC IG and State Department IG later clarified that the "emails contained classified information when they were generated and, according to IC classification officials, that information remains classified today." I. Charles McCullough, III, & Steve Linick, Statement from the Inspectors General of the Intelligence Community and the Department of State Regarding the Review of Former Secretary Clinton's Emails (July 24, 2015).

⁷ Memorandum, *supra* note 6.

On August 11, 2015, the IC IG notified Congress that Secretary Clinton's emails included "information classified up to 'TOP SECRET//SI//TK//NOFORN.'" ⁸ The same day, the *New York Times* reported that Secretary Clinton surrendered the email server and thumb drive containing the emails to the FBI, including at least two emails containing Top Secret information. ⁹ Reports have also suggested that data may have been deleted from the server prior to its transfer to the FBI, but that back-up servers may exist and that deleted information on the server may be recoverable. ¹⁰ These reports raise questions about the steps taken to retrieve, preserve, and protect the classified information, and whether additional unsecured copies of classified information currently exist.

The sensitive nature of the information on Secretary Clinton's personal email system and server—classified up to Top Secret//Sensitive Compartmented Information—means that its release or dissemination to unauthorized individuals could cause "exceptionally grave damage to national security" if proper steps are not taken to ensure its safeguarding. ¹¹ I am also deeply concerned by recent reports that classified information in Secretary Clinton's email may exist outside of the federal government's possession. Accordingly, I ask that you provide the following information:

1. When and how did the FBI first become aware of the potential existence of classified information contained in Secretary Clinton's personal email?
2. How many FBI agents and employees have been assigned to investigate matters relating to the presence of classified information in Secretary Clinton's personal email? Please also identify the FBI component entities involved in this matter.
3. When does the FBI expect to complete its examination of Secretary Clinton's personal email server?
4. Is the FBI evaluating the extent to which deleted material on Secretary Clinton's personal email server is recoverable?

⁸ Memorandum for Sen. Richard Burr et al. from I. Charles McCullough, III, Update to IC IG support to State Department IG (Aug. 11, 2015), available at <http://www.grassley.senate.gov/sites/default/files/judiciary/upload/Classified%20docs%2C%2008-11-15%2C%20ICIG%20CN%20-%20Update%20on%20Classified%20Materials%20on%20Personal%20thumb%20drive.%20Clinton%20server.pdf>.

Maybe.*, WASH. POST, Aug. 12, 2015. For example, the National Security Agency and Central Security Service, which are charged with securing information systems containing classified information, require sanitization of media that stored classified information through degaussing or physical destruction. Erasure, even overwriting all data on a drive with multiple passes, is not sufficient. National Security Agency Central Security Service, NSA/CSS Policy Manual 9-12 (Dec. 15, 2014); *see also* Defense Security Service, Dep't of Defense, Industrial Security Letter 2007-01 (Oct. 11, 2007) ("Effective immediately, DSS will no longer approve overwriting procedures for the sanitization or downgrading (e.g. release to lower level classified information controls) of IS storage devices (e.g., hard drives) used for classified processing.").

¹¹ *See* Classification of official information, 18 C.F.R. § 3a.11.

5. Is the FBI evaluating the extent to which Secretary Clinton's personal email server may have been compromised by an unauthorized entity?
6. Is the FBI conducting a digital forensic analysis of Secretary Clinton's personal email server?
7. What steps is the FBI taking to ensure that all copies of classified material contained in Secretary Clinton's emails are appropriately secured in the federal government's possession?
8. Has the FBI seized all servers or other devices used to back-up Secretary Clinton's personal email server?
9. Has the FBI seized all copies of the thumb drive containing Secretary Clinton's personal email?
10. Is the FBI currently aware of the existence of any digital or hardcopy media outside of the possession of the federal government that could include classified information contained in Secretary Clinton's emails?
11. Is the FBI examining or auditing the physical security of the thumb drive and email server implemented by Secretary Clinton and/or her agents or representatives prior to the time that the FBI seized the materials?
12. Is the FBI storing the thumb drive and email server seized from Secretary Clinton in a sensitive compartmented information facility?
13. Do all FBI personnel with access to the thumb drive and email server seized from Secretary Clinton have appropriate security clearances?

I ask that you provide responses to the questions above as soon as possible but no later than 5:00 p.m. on August 31, 2015. In addition, as the material may be relevant to ongoing congressional reviews of this matter, I ask that you take all appropriate steps to preserve the data contained on the thumb drive and email server in the FBI's possession.

The Committee on Homeland Security and Governmental Affairs is authorized by Rule XXV of the Standing Rules of the Senate to investigate "the efficiency, economy, and effectiveness of all agencies and departments of the Government."¹² Additionally, S. Res. 73 (114th Congress) authorizes the Committee to examine "the efficiency and economy of operations of all branches and functions of the Government with particular reference to (i) the

(U) **Details:** ~~(S//NF)~~ This communication requests the conditional authority of Original Classifying Authority (OCA) E. W. Priestap, Assistant Director, Counterintelligence Division (CD), to show SIDNEY BLUMENTHAL, and his legal counsel, an email sent by BLUMENTHAL that has since been deemed to contain classified FBI information.

to the captioned investigation. The interview will be conducted on 1/7/2016 and will also be attended by his legal counsel from Sidley Austin LLP and attorneys from the Department of Justice.

(U) ~~(S//NF)~~ During the course of the interview, WFO plans to show BLUMENTHAL and his counsel a copy of the attached email that he sent on April 23, 2010 to the former Secretary of State, Hillary Clinton. Showing the email to BLUMENTHAL and his counsel will allow WFO to pursue a logical line of questions regarding the circumstances in which the email was sent. During a recent classification review the FBI deemed that portions of the email contain information classified at SECRET level.

(U) ~~(S//NF)~~ WFO confirms that showing the email will not result in previous unknown sources or informants being revealed, will not negatively impact other case equities, and will not disclose information from any other agency or foreign government.

(U) ~~(S//NF)~~ As a result, CD provides one-time OCA authority for FBI WFO to show BLUMENTHAL and his legal counsel the email above during its planned interview.

(U) ~~(S//NF)~~ Prior to showing BLUMENTHAL, and his legal counsel the email, BLUMENTHAL and his legal counsel should execute a non-disclosure agreement. In addition, FBI WFO should advise BLUMENTHAL of his past and present obligations to protect classified information including the contents of the email. FBI WFO will document these discussions in its FD-302.
